

Leadership Summer School

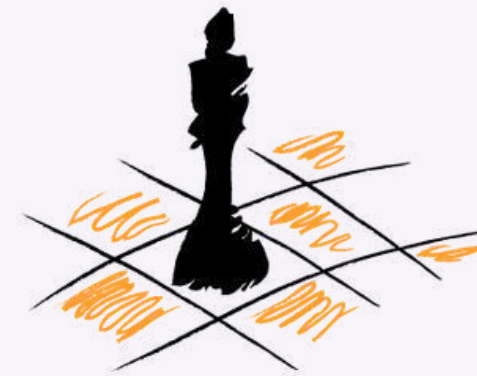

A Zero Generation Project

- 18h - 27th of July 2020
- NISI Raches, Greece

What is LSS?

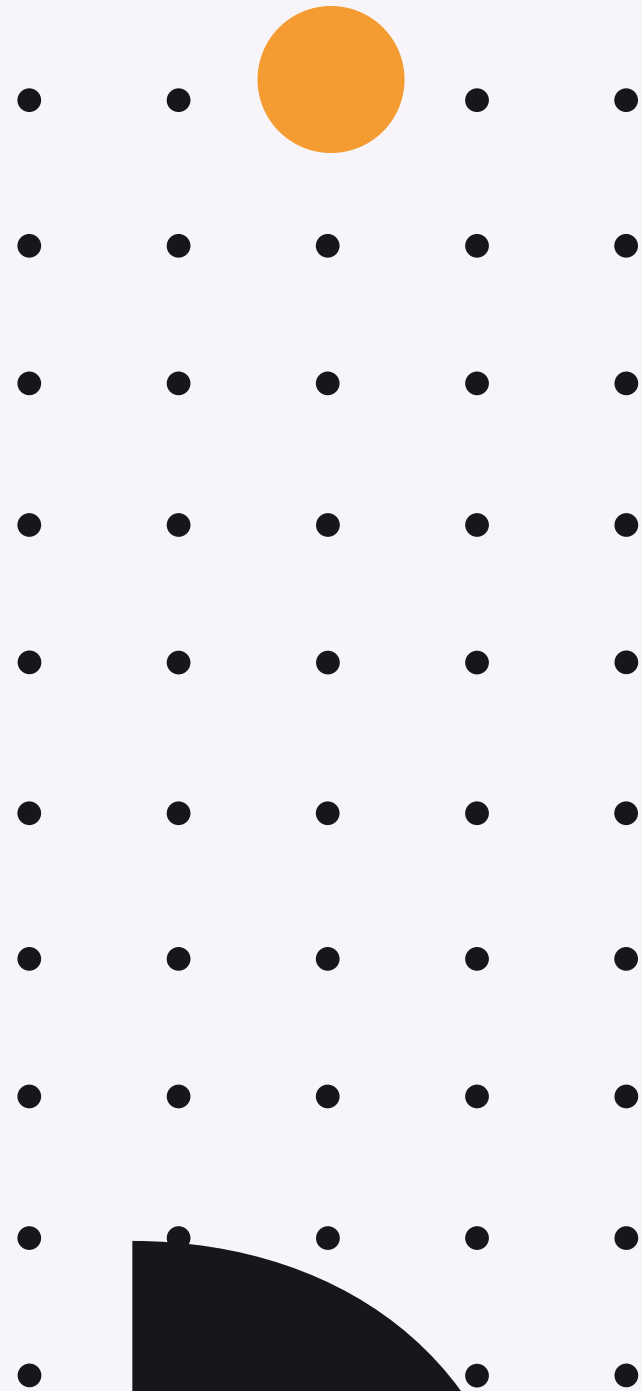

**Leadership
Summer School**

The Leadership Summer School (LSS) is a global, annual, **intensive training event for inspired youth leaders**. During **10 days**, the project fosters skills of motivated participants from all over **Europe and beyond**, engaged in international organisations, and supports them on their path of becoming **future leaders** and active citizens.

Aims of the Project

1

Improve the **leadership capabilities** of prominent members of participating organisations.

2

Create and impart a **framework** and environment for each participant to implement in his/her organisation to network and uncover possible new or better ways of **cooperation**.

3

Enrich the **skills** of the **trainers**, by designing and delivering materials together with trainers from different organisations and backgrounds.

4

Build a strong and **global network** of energetic leaders who strive to spark social change.

Participants

The participants, **aged from 18 to 35 years**, are **students** and/or **young professionals** from different countries, fields of studies, and paths of lives. Many are members of student or youth associations, others are fresh graduates or young professionals.

All of them are **striving individuals** willing to make an **impact** in their **ecosystems** and make a step forward in their **personal development**.

Appreciating

& needs

Peer
Counseling

Learning Pillars

During the programme the participants explore the following 4 learning pillars:

- 1 Personal Development**
- 2 Leading People and Organisations**
- 3 Boosting Collaboration**
- 4 Creating Positive Social Impact**

Personal Development

1

The activities touching this pillars engage participants in raising their awareness about the relevant skills, competences and attitudes effective and positive leaders should have. They can then set their own **personal targets** for areas which they want to improve and take responsibility for the accomplishments of their goals.

Leading People and Organisations

2

The participants understand and practice what a leader needs to take care of in the area of human relationship to develop **teamwork**, trust and improve communication. Therefore they work on skills that will facilitate **vision** building, **public speaking**, **goal setting**, **planning**, **decision making**, and other **relationship management** related skills.

Boosting Collaboration

3

The related activities stimulate participants to develop a **wider social network** and a better understanding of the different organisations involved. They are encouraged to move forward potential **collaborative initiatives** they may have started before or during the event.

Creating Positive Social Impact

4

The related activities raise participants' awareness about **diverse needs in the society** and they are encouraged to be proactive in taking responsibility for creating positive social **impact in their communities**.

Training Methodologies

LSS is a **Non Formal Education program** in which the content is adapted from the needs of the participants, and their organisations, in order to maximize the learning. LSS Educational Strategies are **learner centered**, focused on **practical skills, knowledge sharing** and **best-practices exchanges**. Therefore, participants involvement is crucial.

Through various types of learning activities, the project encourages participants to explore **different organisational and leadership approaches** of international projects, to share and learn from management best practices, and to practice the acquired skills which will prepare them for their future responsibilities.

**Leadership
Summer School**

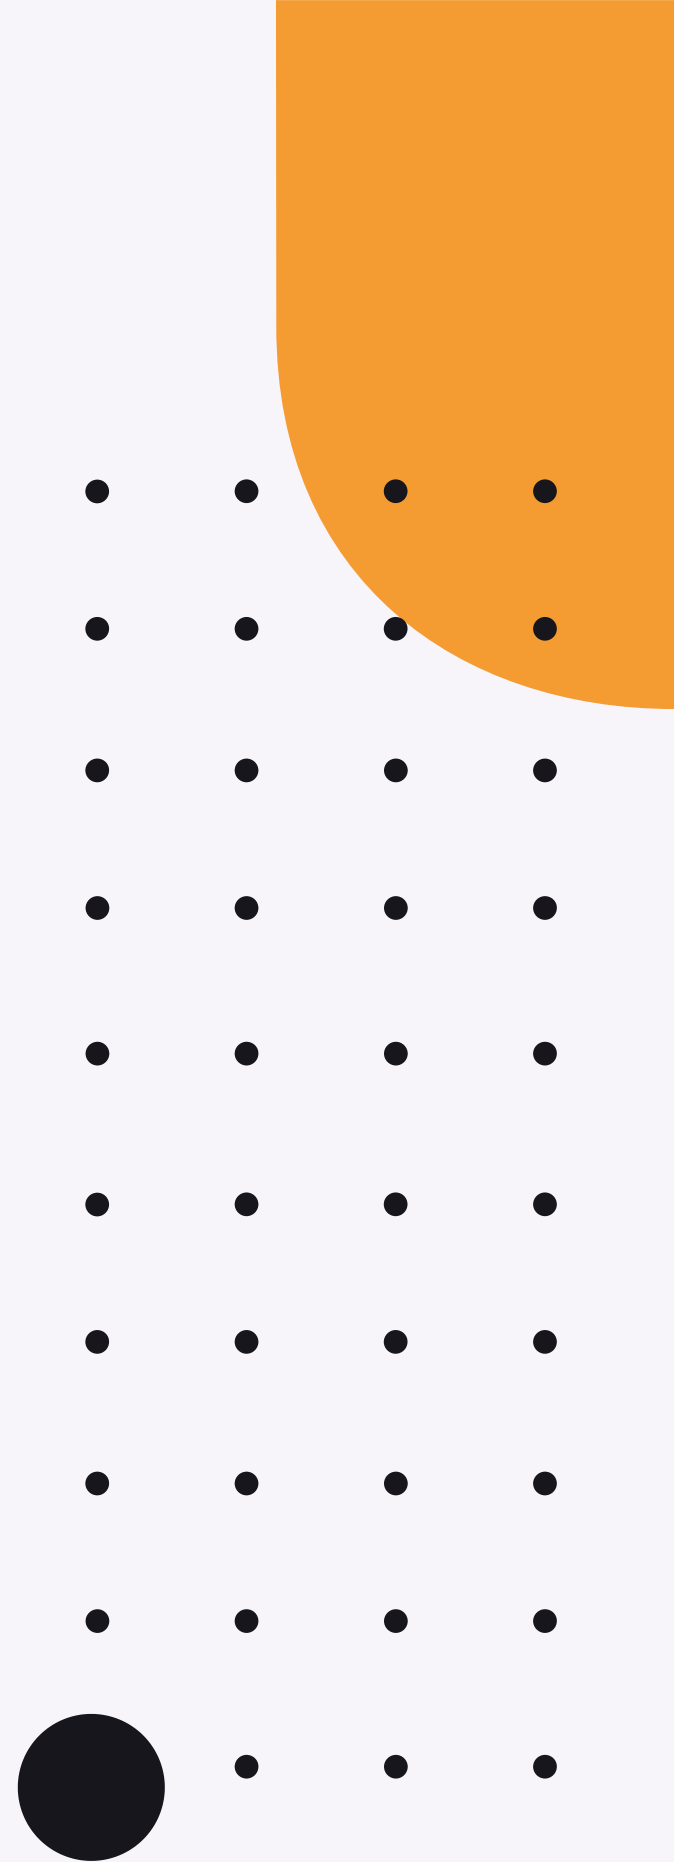

Zero Generation

The organisation behind all the 13 editions of LSS.

Zero Generation is a multidisciplinary team of **professional trainers**, with European and Worldwide NGO experience in leadership, international project management, training and consultancy; with special interests in healthcare, engineering and organisational development. They provide **services** in training, events' facilitation, and organisational establishment. In addition, they organise tailor-made events, including training courses, team building and teamwork events and conferences. And most of them have been trainers at former Leadership Summer Schools.

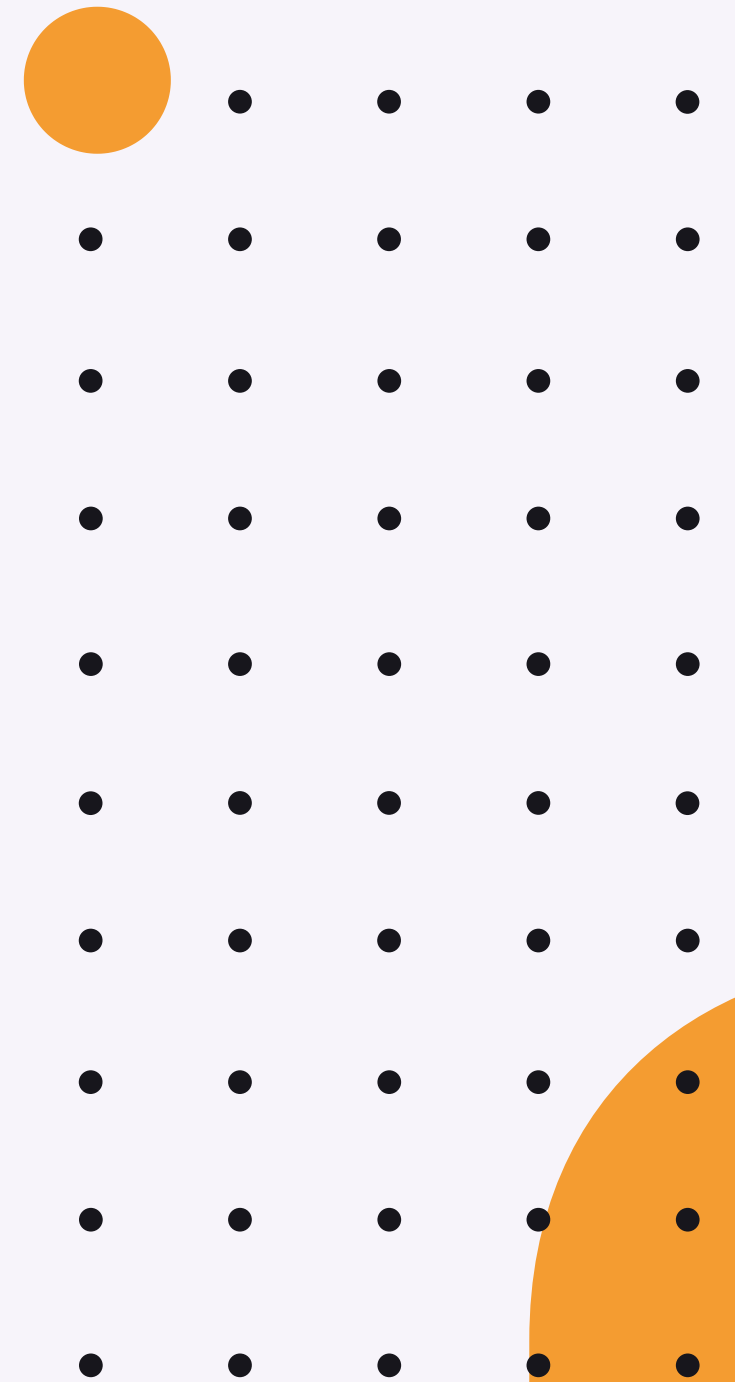

Zero Generation has been created by LSS founders who established the organisation as a supervising body for the development of LSS.

The Team

Many people contribute to the success of LSS.
The team behind everything is comprised of:

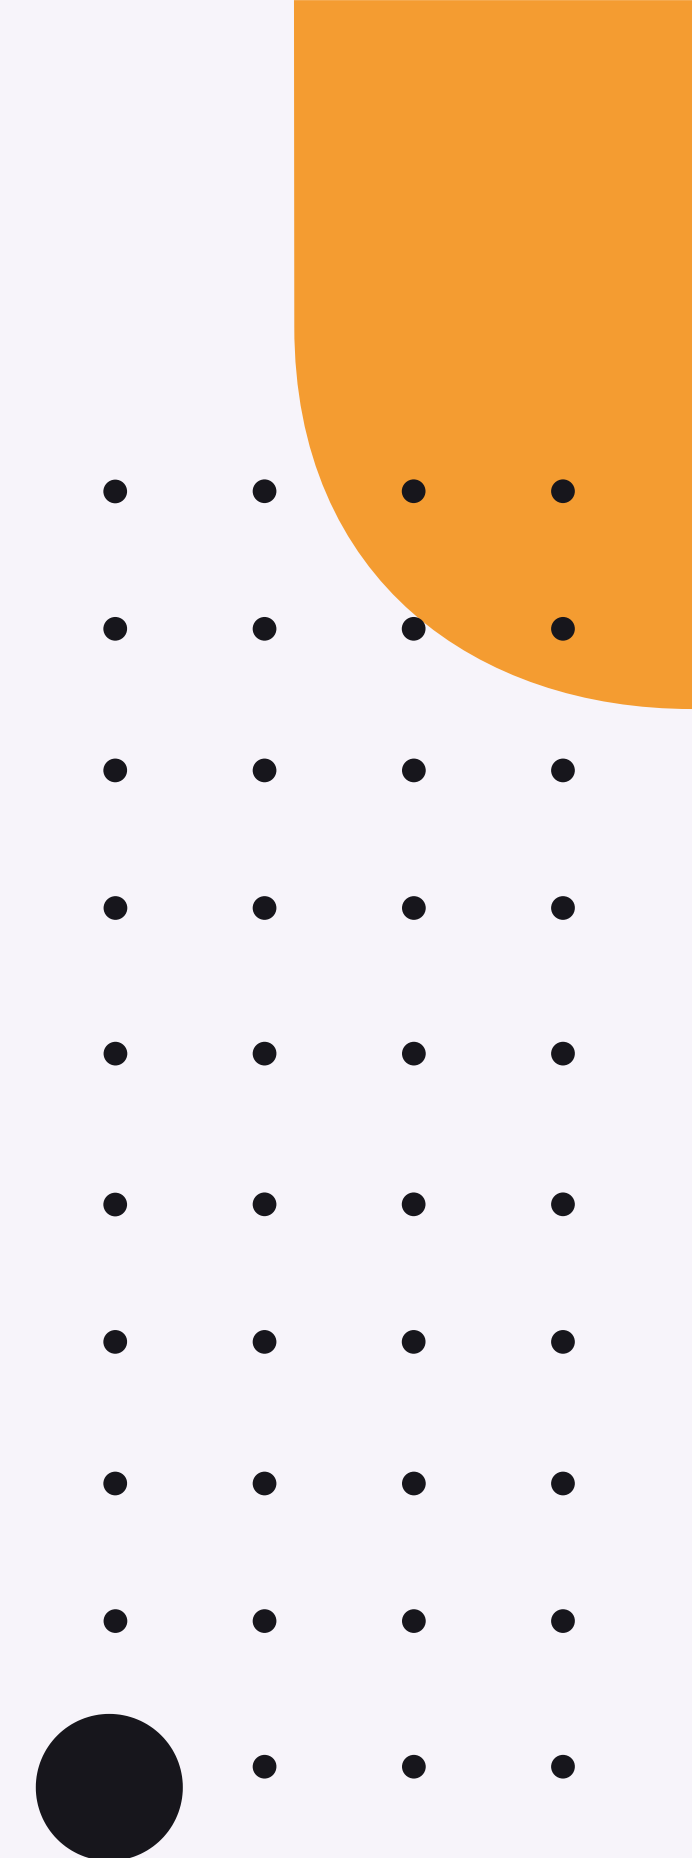

- The **Supervisory Board** – responsible to ensure the organizing and **implementation** of an edition of LSS.
- The wonderful **Trainers** – in charge of the entire **learning process**.
- The excited **Organising committee** is in charge of being the host and making sure everyone has a great time in means of **accommodation, food, conference rooms, logistics** in general and **social events**.

Trainers

LSS Trainers' team is an interdisciplinary group of trainers with various fields of expertise, personal and professional backgrounds, experiences and interests. Together, the LSS trainers **design** the event, creating its main orientation and **learning goals based on participants' learning needs**. They are in charge of delivering all the training sessions and related activities.

LSS Trainers also facilitate various other activities which, **beyond the training room**, contribute in setting a safe environment for participants to share their deeds, dreams, experiences, best practices and ideas.

Raches, Greece

The closest airports to Raches are in Athens and Thessaloniki.

Raches is a Port in **Fthiotida** in the Central Greece Region of Greece.
